## MOUNT OLIVET HOME

# Memory Care Unit

### *Serving With Dignity*

The mission of the Memory Care Unit is to enhance the quality of life for residents with memory related issues while providing specialized care in a home-like and safe atmosphere.

## High-Quality Care With Dignity

Because of the increasing number of people with memory loss in the aging population, Mount Olivet Home is proud to offer a Memory Care Unit within our board and care facility. This new service is part of our goal of providing a continuum of high-quality care for seniors.

Our Memory Care Unit is designed to provide safe, structured, and familiar surroundings for our residents. Through life-enriching programs, families will know that the memory needs of their loved one are being addressed with dignity.

To complete the continuum of care, Mount Olivet Careview Home, our skilled care nursing home is adjacent to Mount Olivet Home.

## Programming

Resident programming is specifically created to help maintain function and enrich life through carefully planned activities.

Programming is individualized and designed to meet each resident's creative, physical, cognitive, social, and spiritual needs.

The needs of residents are carefully balanced to help them feel as fulfilled and independent as possible. Programs are offered 365 days a year.
